

Congratulations - You now have ULTIMATE PATCHES for Roland JD-Xi!

Depending on which JD-Xi patch collection you purchased, there are 180 Ultimate Patches per bank (Each bank contains 60 programs, and each program contains 3 patches: one analog patch and two digital patches). There are 4 banks available (Volume I - IV), totalling 720 patches!

Install Requirements

1. A JD-Xi
2. Windows 7 SP1+ or Mac OS 10.7+

NOTE:

Programs 1 - 31 of Volume I all contain sequences.
Most other programs have empty sequences.

For Vol 1, programs 1-31, press PLAY on the sequencer to hear the patches in action!

INSTALLATION:

First, install JD-Xi System Program (firmware) 1.51, and JD-Xi Driver (Win/Mac).
Downloads are here: <https://www.roland.com/global/products/jd-xi/downloads/>

Now onto the patch install. There are two methods of installation (note: back up your own JD-Xi patches before proceeding as installation will overwrite patches currently in the JD-Xi).

You can install the banks one by one into any of the S-Z banks on the JD-Xi, by following the instructions in the "Adding Data from a Computer to the JD-Xi" section on page 2 of the JD-Xi Version 1.10 Supplementary Manual: https://www.roland.com/global/support/by_product/jd-xi/owners_manuals/

or, (only if you have purchased Volumes 1, 2, 3, and 4):

You can use the "Restore" feature in the Utility menu on the JD-Xi to load in all 4 banks at once. Below are instructions on how to do this. Note; this install will overwrite all patches and settings in your JD-Xi. It will write Ultimate Patches Vol. I, II, III, and IV into banks E-H and those patches are also duplicated into banks S-V. Use the Utility>Backup menu to backup your JD-Xi before proceeding. Instructions for backing up are found in the Roland JD-Xi Owner's Manual on page 13.

To install JD-Xi Ultimate Patches Vol. I, II, III and IV:

- Turn on your JD-Xi. Connect JD-Xi USB to your PC.
- On the JD-Xi, hit the Menu button. Scroll to "Utility". Hit Enter.
- Scroll to "Restore", hit enter. Screen will have a flashing cursor box.
- On your PC, In the listing of your hard drives (C: etc) a RESTORE folder will appear.
- Drag the "JD-Xi" located in this zip archive, into the RESTORE folder.
- Wait til it's copied - 5 seconds or so.
- Hit "Exit" button on your JD-Xi and wait. It will take a few minutes to restore. When it's done, the JD-Xi will display "Completed. Turn off power".
- Turn off the unit, unplug your USB from the JD-Xi, and restart it. The patches are now loaded into banks E-H, and duplicated to S-V. Enjoy!

If you have any questions, contact us via the contact page on our website [UltimatePatches.com](https://www.ultimatepatches.com)
— we usually respond within a few hours, and usually the same day.

Legal: Use these patches freely to create musical ideas and songs with — they can be used in personal or commercial recordings or playing live. None of the patches can be redistributed for free, and/or resold in any way. The compositions in the sequences and Youtube video demo are copyright protected via their respective owners, and are used in the sequences only for demonstration purposes of the patches. Much of the original music in the Youtube video demo / sequences is available for purchase or licensing for your own recordings; contact support@ultimatepatches.com for more information.
