

# ROLAND JP-08

## ULTIMATE PATCHES

### FAST 'n' EASY USB INSTALL GUIDE + PATCH LIST

#### INSTALLATION:

There are 3 sets of patches in each Volume:

**Set 1** (64 Patches plus 8 Dual Patches)

**Set 2** (64 Patches plus 8 Dual Patches)

**Set 3** (8 Patches)

#### **IMPORTANT: PRINT THE PATCH LIST, TRY PITCH/MOD WHEELS**

Print out the patch list and refer to it when trying out the patches, as the patches are named with their intended use by the designer. You'll be glad you did! Also, try the pitch and mod wheels — we've programmed them per-patch to sometimes provide interesting +and unusual variations (as heard on our Ultimate Patches JP-08 Youtube demos)!

#### Install Requirements

1. A JP-08
2. A PC (Windows 7 SP1+) or Mac (OS X 10.9+)
3. The Roland Boutique Driver (PC/Mac) and System Program 1.21

#### Backup your patches

Now is a good time to back up your existing patches before installing Ultimate Patches.

1. Download and install the System Program 1.21 firmware to your JP-08. As well, install the Boutique driver to your PC or Mac. Downloads available from: <https://www.roland.com/ca/products/jp-08/downloads/>
2. After completing that, connect the JP-08 to your computer via USB. Turn on the JP-08 while holding down the PATCH NUMBER [2] key on the JP-08. A "JP-08" drive will show up on your computer. The backup files are located in the "BACKUP" folder of the "JP-08" drive. Copy that BACKUP folder to your computer.
4. After copying is completed, eject the USB drive and then disconnect the USB cable. Backup is complete.

#### Here's how to load our patches into your JP-08:

1. Complete Step 1 in the "Backup your patches" section above.
2. After that, connect the JP-08 to your computer via USB. Turn on the JP-08 while holding down the PATCH NUMBER [2] key on the JP-08. A "JP-08" drive will show up on your computer.
3. Drag the CONTENTS of the JP-08 Ultimate Patches BACKUP folder (not the folder itself) into the RESTORE folder on the JP-08 drive on your computer. Those BACKUP folders are in your Ultimate Patches download.
4. Once the contents are done copying, press the MANUAL button on your JP-08. Wait a few seconds (until the lights stop scrolling on your JP-08), then restart the JP-08. That set of patches is now installed. Enjoy!

### **A NOTE ABOUT THE SECRET CHORUS:**

There is a hidden unofficial Chorus feature on the JP-08. Certain patches in the collection sound great with it – on the **Ultimate Patches JP-08 Volume 1 Patch List** (next page) these have been marked as Chorus I, II or III. You will have to turn on the Chorus for those patches. Here's how:

First, make sure you have JP-08 System Program Ver.1.10 or higher which enables MIDI CC. You can download it from <https://www.roland.com/global/products/jp-08/downloads/>

Then, to turn on the chorus, you need to send a CC message to the JP-08: **CC93, Value=1-3**. Search for "JP-08 Chorus" on Youtube if you need help on how to do this.

**Note:** the Chorus setting can be saved with your patch, but is not saved in your backed up patches when you use the Roland Backup procedure found in the JP-08 Owner's Manual.

If you have any questions, contact us via the contact page on our website **UltimatePatches.com** — we usually respond within a few hours, and usually the same day.

---

**Legal:** Use these patches freely to create musical ideas and songs with — they can be used in personal or commercial recordings or playing live. None of the patches can be redistributed for free, and/or resold in any way. The compositions in the sequences and Youtube video demo are copyright protected via their respective owners, and are used in the sequences only for demonstration purposes of the patches. Much of the original music in the Youtube video demo / sequences is available for purchase or licensing for your own recordings; contact [support@ultimatepatches.com](mailto:support@ultimatepatches.com) for more information.
