

minilogue xd

ULTIMATE PATCHES

FAST 'n' EASY USB INSTALL GUIDE + PATCH LIST

Install Requirements

1. A Minilogue XD (Keyboard or Module)
2. A PC (Windows 7+) or Mac (macOS 10.10+)
3. The free Korg Minilogue XD Librarian program (PC/Mac) + Korg USB-MIDI Driver*

Installation

First, install the free Korg USB-MIDI Driver*:

<https://www.korg.com/us/support/download/product/0/811/>

**Note: If using macOS Catalina (10.15) or later, do NOT install the KORG USB-MIDI Driver as it will prevent the Minilogue XD from being recognized by your Mac.*

then install the free Korg Minilogue XD Sound Librarian (Version 1.0.5 or later):

<https://www.korg.com/us/support/download/product/0/811/>

Then drag + drop (or double click) the following file onto the Librarian: (*Do NOT rename these files - they must be named exactly as below or they will not open in the librarian.*)

Minilogue XD ULTIMATE PATCHES Volumes 1-3.mnlxdpreset

or if you purchased a single volume:

Minilogue XD ULTIMATE PATCHES Volume 1.mnlxdpreset (or Vol 2 or 3)

The patches are now installed in the Preset window of the librarian**. You can open the Preset window via the Option menu in the librarian to view / drag + drop the patches into the main window. Optionally, you can open all the patches into the main window of the librarian by drag + dropping (or double click):

Minilogue XD ULTIMATE PATCHES Volumes 1-3.mnlxdlib

or if you purchased a single volume:

Minilogue XD ULTIMATE PATCHES Volume 1.mnlxdlib (or Vol 2 or 3)

Further instructions for using the librarian are included in the Korg Librarian download.

Note: Patches have a sequence to demonstrate the patch for you. Just hit the Play button on the XD to hear the patch in action! Also, the patches use the analog and digital oscillators that ship with the synth, so no additional downloads are required.

***As stated on Korg's website, there is a known bug that some computers won't load .mnlxdpreset files and will either crash the app or give a "File format not supported" error. No worries; just continue installing the .mnlxdlib file(s) to load them into the librarian.*

If you have any questions at all, please contact us via the contact page on our website **UltimatePatches.com** — we usually respond within a few hours, and usually the same day.

Legal: Use these patches freely to create musical ideas and songs with — they can be used in personal or commercial recordings or playing live. None of the patches can be redistributed for free, and/or resold in any way. The compositions in the sequences and Youtube video demo are copyright protected via their respective owners, and are used in the sequences only for demonstration purposes of the patches. Much of the original music in the Youtube video demo / sequences is available for purchase or licensing for your own recordings; contact support@ultimatepatches.com for more information.
