ULTIMATE PATCHES

FAST 'n' EASY USB INSTALL GUIDE + PATCH LIST

Install Requirements

1. An SE-02
2. A PC (Windows 7 SP1+) or Mac (OS X 10.10+)

Backup your patches

Remember to back up your SE-02 current patches before installing your Ultimate Patches:

1. While holding down the SE-02 "B" button, turn on the power of your SE-02.
2. Connect your computer to the SE-02 USB port via a USB cable. The "SE-02" drive will appear in your computer's hard drive list after a few seconds of the SE-02 lights flashing green + orange.
3. Double click (open) that "SE-02" drive. You'll now see 3 folders: "PATCH", "PATTERN" and "SONG".
4. Copy that PATCH folder to your computer. - it contains all patches currently in your SE-02.
5. After copying is completed, disconnect the USB cable.

How to load our patches into your SE-02

3. Connect the SE-02 to your computer via USB.
4. Turn on the SE-02 while holding how the "C" button on the SE-02.
5. An "SE-02" drive will show up on your computer.
6. Drag the contents - all patches - in the "PATCH" folder (which is in the SE-02 Ultimate Patches you purchased) of any single volume into the PATCH folder on the SE-02 drive that has appeared on your computer.
7. Once the contents are done copying, unplug the USB cable. Wait a few seconds (until the lights stop scrolling on your SE-02), then restart the SE-02.
8. The patches are now installed into the USER bank. Enjoy!

To create your own custom collection of patches:

Create a folder on your pc, and copy any of the patches you want into it via the Backup procedure on the previous page. You can renumber any of those patches by changing the number in the filename. For example, to move patch 14 to patch slot 100, SE02_PATCH14.PRM rename to SE02_PATCH100.PRM then follow the installation procedure above.

If you have any questions at all, please contact us via the contact page on our website **UltimatePatches.com** — we usually respond within a few hours, and usually the same day.
