TAKE 5

ULTIMATE ▮ PATCHES

FAST 'n' EASY USB INSTALL GUIDE + PATCH LIST

Install Requirements
1. A Sequential Take 5 (Keyboard or Desktop)
2. A PC (Windows 7+) or Mac (macOS 10.9+)
3. The free program MIDI-OX (PC) or free SysEx Librarian (Mac)

IMPORTANT!
1. **Before installing the patches, you must calibrate your Take 5 (Global > Cal Voices) to ensure the patches sound as we intended. This is super important, because all analog synths drift out of calibration over time and the patches might not sound like they do in our Youtube video if you don't calibrate first.**
2. **When playing the patches, use the mod wheel as it usually provides an alternative unique version of the patch. Also use aftertouch for additional expression, which is used on over 95% of the patches.**
3. **Note: Patches have "@up" in the patch name, simply for reference that the patches are from Ultimate Patches.**

INSTALLATION PREPARATION - *If you haven't loaded patches into your Take 5 before, here's how to do it:*

1. Download and install the free MIDI-OX (PC) or SysEx (Mac) program:
http://www.midiox.com   https://www.snoize.com/sysexlibrarian/

2. (Note: The following instructions are edited from Sequential's official patch install instructions).
Connect your Take 5 to your PC or Mac using a USB cable. Press the Global button on your Take 5 and use the Parameter knob to select "MIDI sysex cable", then use the Value knob to choose USB. The Take 5 is a Class Compliant USB device so it doesn't require additional drivers to be installed to your computer. The Take 5 will appear in MIDI-OX and other MIDI applications as a MIDI port named "Take 5" (In Windows XP, it will appear as "USB Audio Device.")

3. Now's a good time to **back up the patches that are currently in your Take 5 before you install your Ultimate Patches, because all patches in the Take 5's user banks (banks U1-U8) will be overwritten**. Note however, that the synth's built-in Factory patches will not be overwritten. To backup, see the "BACKUP - PC / MIDI-OX" or "BACKUP - Mac / SysEx Librarian" sections in this manual.

PATCHES

TAKE 5

ULTIMATE ▌ PATCHES

FAST 'n' EASY USB INSTALL GUIDE + PATCH LIST

BACKUP - PC / MIDI-OX:

1. Reboot your PC. Complete steps 1-5 of the "PATCH INSTALLATION - PC / MIDI-OX" section below.

2. In MIDI-OX, Select View > Sysex

3. Then select Sysex > Receive Manual Dump. The "SysEx Receive" window will open.

4. On your Take 5, scroll to any patch in the bank you wish to back up.

5. On the Take 5, hit the Global button and scroll to "Dump Bank" or better; "Dump All" - his will back up all User Banks.

6. Press WRITE on the Take 5 to send the data to MIDI-OX.

7. MIDI-OX will receive the data within a few seconds and "Wait for completion" / xxxxxx Bytes Received" will display. Click "Done."

8. Go to Display Window > Save As to save your sysex (.syx) file to your PC. It is now backed up for safekeeping.

PATCH INSTALLATION - PC / MIDI-OX:

1. Reboot your PC. Connect your Take 5 to your PC via USB cable.

1. Open MIDI-OX. From the Options menu of MIDI-OX, choose "MIDI Devices."

2. Click "Take 5" in the MIDI Inputs and MIDI Outputs areas of that MIDI Devices window (Windows XP shows "USB Audio Device" instead of "Take 5"). The selected MIDI port appears in the Port Mappings window.

3. Click OK to close the dialog and save the settings.

4. From the View menu, choose "SysEx." Then, from the SysEx menu, choose "Configure."

5. Set the Low Level Output and Input Buffers "Num" and "Size" to 4096. Under Output Timing, make sure that "Auto-adjust Buffer Delays if necessary" is NOT enabled. Click OK to close the dialog and save the settings.

8. From the Command Window menu, choose "Load File." Browse to the files you purchased from us, and Open one of the volumes eg "ULTIMATE PATCHES VOLUME 1.syx" (or 2 or 3). Note: the synth can store only one volume at a time.

9. From the Command Window menu, choose "Send SysEx". The patches now send to your Take 5 and will replace any existing programs in Banks U1-U8 on your Take 5. You're ready to play!

ULTIMATE
PATCHES

TAKE 5

ULTIMATE ▮ PATCHES

BACKUP - Mac / SysEx Librarian:

1. Connect your Take 5 to your Mac and reboot your Mac. Before starting SyxEx Librarian, close all other audio or MIDI or DAW software, and disconnect all other MIDI devices. If you haven't yet, download and install SysEx Librarian.

2. Run SysEx Librarian and hit the Record One button.

3. On your Take 5, scroll to any patch in the bank you wish to back up. Hit the Global button and scroll to "Dump Bank" to back up a single bank, or "Dump All" to back up all User banks, and press the "Write" button.

4. You'll see "Done" in SysEx Librarian once the data has been received. This file is now stored in your SysEx folder. By default, this is a folder named "SysEx Librarian", in the Documents folder in your home folder.

5. If you need it, more detailed instructions + troubleshooting are at https://www.snoize.com/sysexlibrarian/docs.html

INSTALLATION - Mac / SysEx Librarian:

1. Connect your Take 5 to your Mac and reboot your Mac. Before starting SyxEx Librarian, close all other audio or MIDI or DAW software, and disconnect all other MIDI devices. If you haven't yet, download and install SysEx Librarian.

2. Run SysEx Librarian and choose Take 5 as the Destination.

3. Click Add/+ to add the ULTIMATE PATCHES VOLUME 1.syx (or 2 or 3) to the file list or simply drag and drop the file on the open SysEx Librarian window. The file name appears in the file list and should be highlighted.

4. Click Play. The patches now send to your Take 5 and will replace any existing patches in User Banks 1-8 on your Take 5. You're ready to play!

5. If you need it, more detailed instructions + troubleshooting are at https://www.snoize.com/sysexlibrarian/docs.html

NOTES: Patch volumes vary, as we sometimes overdrive the analog outs for huge saturated patches, and conversely, underdrive the outs for more delicate patches. Also, the music played in our Youtube videos is played as a demonstration of the patches and is not included.

If you have any questions, feel free to contact us via the contact page on our website **UltimatePatches.com**
— we usually respond within a few hours, and usually the same day!
