## ULTIMATE PATCHES

### FAST & EASY USB INSTALL GUIDE + PATCH LIST

#### Install Requirements

1. A Korg Wavestate (or the software version "Wavestate Native")
2. A PC (Windows 7 SP1 64 bit or later) or Mac OSX 10.12+
3. The free Wavestate Editor / Librarian from Korg

Note: No 3rd party samples are required, as we only used factory samples

#### IMPORTANT!

1. **Keep the main volume knob on the synth at maximum at all times when playing our patches, as many of the patches intentionally overload the synth's analog output for thick and sometimes crackly effects. If the occasional patch crackles too much for your liking, you can use the Performance's volume control in the menu to lower the volume. Note that this will likely make the patch sound weaker so we don't recommend it.**
2. **When playing the patches, make sure to use the mod wheel as it provides a tasty alternative version of the sound in nearly all our patches.**

*Note: The patches have "UP" at the start of each patch name, simply for your patch organizing / reference that the patches are from us. The music played in our Youtube videos is hand-played as a demonstration of the patches and is not included.*

**INSTALLATION** - *If you haven't loaded patches into your Wavestate, here's how to do it:*

1. Download and follow Korg's instructions to install both the Wavestate System Updater 2.1.1 (or newer): <https://www.korg.com/us/support/download/product/0/840/> and the free Wavestate Editor / Librarian 1.1.1 (or newer): <https://www.korg.com/us/support/download/product/0/840/>  
Should you have questions or need help installing the above software, contact Korg Support for assistance.
2. Once you've got the Editor / Librarian up and running, simply double click the .wsbundle file (included in your download) to open, or alternatively, click on the File menu and select Import from the dropdown, select the desired patches (for example, Ultimate Patches Volume 1.wsbundle) and click Open to load them into the librarian and synth.
3. Click on the "Librarian" tab in the Editor / Librarian to see the list of patches you just loaded into the synth.  
You're ready to play - enjoy!

If you have any questions, feel free to contact us via the contact page on our website **UltimatePatches.com** — we usually respond within a few hours, and usually the same day!

---

Legal: Use these patches freely to create musical ideas and songs with — they can be used in personal or commercial recordings or playing live. However, none of the patches can be redistributed for free, and/or resold in any way. The compositions in the sequences and Youtube video demo are copyright protected via their respective owners, and are used in the sequences only for demonstration purposes of the patches. Much of the original music in the Youtube video demo / sequences is available for purchase or licensing for your own recordings; contact [support@ultimatepatches.com](mailto:support@ultimatepatches.com) for more information.
